

ACN: 134 107 083

STATEMENT OF COMPLIANCE

16th September 2009.

On behalf of Environmental Services Pty Ltd of 16 Halsey Rd Airport West Victoria, the product Aussan-W4 has been evaluated against the requirements of the Food Standards Australia New Zealand (FSANZ) code for use in handling, manufacturing, or processing of foods.

- Aussan-W4 is described as a natural ingredient based sanitizing and preservation agent certified as an input for organic farming.
- Aussan-W4 is manufactured under strict GMP audited annually by NASAA.
- Each ingredient used in the manufacture of Aussan-W4 has been vigorously evaluated against the requirements of FSANZ for use in the manufacturing, processing or handling of food.

We confirm that Aussan-W4 meets the requirements of FSANZ for use as a processing aid under GMP for most raw foods including uncooked crustaceans, fruit and vegetables, and poultry.

Where further processing of food occurs such as cooking or preserving, Aussan-W4 may also be used as a food additive where required and under GMP, up to a concentration of 5 gms/kg .

For specific foods, further clarification may be obtained by referring to schedule 1.3.1 of the food standards code

http://www.foodstandards.gov.au/srcfiles/Standard_1_3_1_Additives_Part_2_v1111.pdf.

When referring to schedule 1, where additives in Schedules 2,3,or 4 are permitted, Aussan-W4 may be used as a food additive. Where not permitted, Aussan-W4 may only be used as a processing aid.
